Text should be fully justified and single-spaced. Title, section, and sub-section headings should align on the left-hand margin. Place a full page of text and figures on each page. Do not include headers or footers, except page number, in your electronic submissions. Number the pages of the manuscript at the bottom right hand corner.

All references should appear together at the end of the paper. References are listed alphabetically by last name of the first author. For anonymous reports and standards, alphabetize by the issuing institution. All references listed must be cited in the text. To cite sources in the text, use the author-date method; list the last names of the authors, then the year. For example: (Augenbroe 1999).

The final page size for the Proceedings is A4 (21 x 29.7 cm) . The text area will be 16 cm x 23.7 cm. The top and bottom margins are 3 cm and side margins at 2.5 cm each. **Figure 1** shows these final dimensions.
